Website Care Report

Hi 515Hosting & Web Design,

Included in this packet is information on updates and changes made to your website in the specified date range for requested maintenance or other services as well as recommendations. You can see a general overview of individual changes on the "Custom Work" page.

Maintaining Your Site Is Important

Keeping your website up to date is extremely important. Though a website can appear to function correctly on the surface, failure to maintain websites can pose security vulnerabilities for your users, files, databases, and other website components. In some cases, a website that works without incident for years unmaintained can suddenly and without warning become broken and unavailable to visitors on the web. Thank you for being a valuable client and keeping your website up to date!

Did you know...

You could be saving money on web hosting!

Web hosting packages at 515Hosting start at \$3.75 per month (paid annually) and include free SSL certificates, unlimited email addresses, unlimited bandwidth, unlimited storage and shared hosting plans even offer a free domain name! Plans at web hosts like GoDaddy, Bluehost, and other major web hosts are typically one size fits all and small business owners often don't realize they're overpaying for "small biz" plans far beyond their needs.
